Save the Date! This year's Virtual CWWA/CTAWWA Fall Conference 2020 will feature:

- Live and on-demand educational sessions on critical state and federal issues affecting the water sector
- Lessons from the Field - Presentations on Utility Projects
- Opportunities for attendees to engage in small, interactive discussions with your colleagues to share ideas, discuss operational or compliance issues, and build networks
- A Virtual Trade Show that will allow firms to highlight their products and services, schedule product demos, and engage with attendees one-on-one

The Fall Conference will be available on demand for 30 days following the event. It will be hosted on the Map Dynamics Platform, which will allow presenters to live stream and respond to questions. Conference Registration information, including Sponsorship and Trade Show registrations, will be available next week.
Our Virtual Event platform is designed to provide your firm with greater visibility than ever before - a suite of tools to successfully promote your products and services!

**Call for Presentations!**

Interested in sharing your expertise with water industry professionals? If your firm is interested in presenting on topics of interest to the water sector, please contact Betsy Gara at 860-841-7350 or gara@gmlobbying.com.

Possible Topics:

- Presentation on a Utility Related Project(s)
- Compliance Issues - State and Federal Laws, such as Lead & Copper Rule
- Emerging Issues - Addressing PFAS Regulation
- Addressing COVID-19 Challenges

Thank you!
